

Humidifier Limpia 2

Olimpia Splendid Limpia 2

Art: 99423

High-efficiency humidifier with rotatable nozzle that emits finely divided moisture in the room.

- Cold moisture via ultrasonic technology
- Humidification capacity 150 ml / h
- Coloured LED light for colour therapy
- Tank capacity 2 litres
- Hours, 8, 4 or 2 hours

With its unique ultrasonic technology, the water particles are atomized in a way that allows the moisture to spread evenly in the room. Another advantage is that the technology minimizes the risk of water ending up on the floor or table around the humidifier. However, you should continue to be careful if you place it directly on a wooden surface, parquet floor or similar.

Limpia 2 has a high capacity with about 1.5 dl water / hour, which with a full tank means that it can be run at maximum power for over 12 hours. With a normal ceiling height, it can be recommended for a living area of about 25 m². Please note that this is only a recommendation and depends entirely on how your rooms are ventilated and what humidity you have outdoors.

Limpia 2 is economical as it only has a power consumption of max 12W and it has a timer that can be set in three modes, 2, 4 or 8 hours. Limpia 2 is perfect for the bedroom.

The unit is controlled by means of hygienic touch controls that allow you to switch the unit on / off and set the timer. You can also control the built-in lighting (on / off). The lighting means that the water tank changes colour automatically, in a relaxing way.

Technical data:

PRODUCT CODE	99423
EAN	8021183994230
Humidification capacity ml / h	150
Humidity area sqm	25
Power consumption W	12
Steam mode	1
Protection level	IP X0
Tank capacity litres	2.0
Product dimensions (W x H x D) mm	180 x 189 x 180
Packaging Dimensions (W x H x D) mm	215 x 226 x 215
Weight (without packaging) kg	0.80
Weight (with packaging) kg	1.20
Power supply V-F-Hz	220-240 - 1 - 50
Compliance mark	CE
Ultrasonic technology cold fog	√
Tank empty signal	√
Night light	√
Adjustable steam nozzle	√
Timer	√
